Carry out surveys

This platform allows users to create, send, and collect responses for surveys quickly and easily. The survey tool empowers the development, distribution, submission, collation and analysis of surveys for decision support across targeted audiences. The filters and cross tabs help you see only questions and responses that meet a criteria. You can now get real time results of surveys as responses roll in

Keep expenses on track

TOMS is a solution that makes it quick and easy to track and organize equipment and get preventive and repair maintenance information for them. It could also serve as an inventory system because it is flexible enough to let you track as much or as little information as you need. For example, when a certain vehicle or piece of equipment is being used under a project or even when an equipment is due for service. Any unexpected maintenance performed on a vehicle will be also be recorded and saved.
